

CENTER FOR
**SUSTAINABLE
COASTAL TOURISM**

SERVES TO:

- ✓ Reduce the environmental footprint while increasing the economic bottom line in support of the tourism industry
- ✓ Restore habitats and ecosystems to improve the quality of Hawai'i's environment
- ✓ Provide scientific expertise in support of energy and water conservation

RESULTING IN:

Positive impacts on Hawai'i's economy, environment, and quality of life for local residents

SIGNATURE PROJECTS

HANAUMA BAY EDUCATION PROGRAM

APPROXIMATELY
800,000
ANNUAL VISITORS
ARE EDUCATED ON THE
VALUE OF MARINE
RESOURCES AND
APPROPRIATE BEHAVIOR

CREATED AND OPERATED BY HAWAI'I
SEA GRANT, THE HANAUMA BAY
EDUCATION PROGRAM HAS BEEN
EDUCATING VISITORS FOR MORE THAN

25 YEARS

1967 DECLARED AS HAWAI'I'S
FIRST MARINE LIFE
CONSERVATION DISTRICT

A premier snorkeling location.

Home to some of the most colorful, unique marine life in the world.

Public events share marine and coastal research with the community.

BEACH RESTORATION PROJECTS

Restoring and *maintaining* the health and vitality of these natural resources is integral to the continued economic contributions of Hawai'i's flagship visitor destination. Simultaneously, this supports a healthy environment for surfing, paddling, fishing, and other ocean-based activities that contribute to the overall quality of life for O'ahu's residents.
